ABOUT ME

ServiceNow Developer/ Consultant and Software Engineer with **4+ years** of hands-on experience architecting, developing, and deploying enterprise-grade **ITSM, ITAM, FSM, CSM, IRM/GRC, CMDB, and CSDM** solutions. Certified ServiceNow System Administrator (CSA) and Implementation Specialist – Data Foundations (CIS-DF), with a proven track record of translating complex business requirements into scalable, audit-ready platforms. Proficient in JavaScript (Glide API), REST/SOAP integrations, Flow Designer automation, and Service Portal development.

Currently pursuing a BSCS at the **University of Management & Technology** (Dean's Award recipient) and actively exploring the intersection of **Generative AI** and ServiceNow to deliver next-generation, self-healing enterprise workflows. Seeking remote roles as a ServiceNow Developer, Architect, or AI Automation Engineer.

TECHNICAL SKILLS INVENTORY

ServiceNow Core Expertise

- **Modules:** ITSM (Incident, Change, Problem), ITAM (Hardware & Software Asset Management), FSM (Field Service Management), CSM (Customer Service Management), IRM/GRC (Integrated Risk Management), CMDB & CSDM and Discovery.
- **Development:** Business Rules, Client Scripts, Script Includes, UI Actions, UI Policies, Data Policies.
- **Automation:** Flow Designer, Workflow Editor, Integration Hub.
- **Service Portal:** Widget Development, Portal Customization, CSS/HTML/AngularJS.
- **Platform Admin:** CMDB Configuration, ACL Security, Update Sets, Performance Analytics.

Software Engineering & Programming

- **Languages:** JavaScript (ES6+), Python (Automation/Data), C++, PHP, Kotlin (Android).
- **Web Frameworks:** React JS (Frontend), Django & FastAPI (Backend REST APIs).
- **Databases:** MySQL, PostgreSQL (Relational Data Modeling & Query Optimization).
- **Tools:** GitHub (Version Control), VS Code, PyCharm, Android Studio, Now Agent Mobile App.
- **Specialized Tech:** REST/SOAP APIs, JSON/XML Data Parsing, AJAX, and Unit Testing.
- **Cloud & Data:** AWS (EC2/S3), Azure, and Power BI Analytics.
- **Tools & Enterprise:** JIRA, GitHub, MS 365 Suite (SharePoint/Teams).

PROFESSIONAL EXPERIENCE

Xaas Solutions LLC (Pvt) Ltd, Lahore | Nov 2023 – Present

- **Field Service Management (FSM) Mobile:** Architected the complete Work Order (WO) and Work Task (WOT) lifecycle for mobile users. Developed complex questionnaire logic using Now Agent, ensuring field technicians have real-time data validation capabilities.
- **Hardware Asset Management (HAM):** Designed a robust HAM framework from scratch, including asset lifecycle tracking, stockroom management, and automated compliance alerts.
- **CSM & Service Portals:** Engineered custom-branded Service Portals and high-performance widgets for Customer Service Management, improving user self-service rates by optimizing UI/UX.
- **Performance Analytics:** Developed advanced PA dashboards for executive leadership, focusing on SLA breach analysis, MTTR (Mean Time to Resolution) trends, and resource allocation.
- **Integrations:** Built and maintained bi-directional REST API integrations with third-party vendors to synchronize asset data and incident tickets.
- **Security:** Enforced strict data governance through complex ACL (Access Control List) configurations and User Criteria for Catalog items.

IRM/GRC Consultant (Freelance Support Project)

- **Risk Management:** Implemented the full Integrated Risk Management (IRM) suite, tailoring the Risk Assessment methodology to meet specific industry regulatory requirements.
- **Compliance Mapping:** Mapped over 50+ Control Objectives to internal organizational policies, creating a centralized, audit-ready compliance dashboard.
- **Workflow Automation:** Developed automated notification systems for issue remediation and evidence collection, reducing manual audit preparation time by 40%.

ITOM & CMDB Discovery Architect (Freelance Project)

- **Service Graph Connector:** Configured and deployed Service Graph Connectors to seamlessly integrate external data sources into the CMDB, ensuring accurate and real-time asset visibility.
- **Discovery (Cloud & On-Premise):** Implemented ServiceNow Discovery for hybrid environments, enabling automated identification and classification of infrastructure components across AWS, Azure, and on-premise data centers.

- **Mid Server Management:** Installed, configured, and optimized MID Servers to support secure communication between ServiceNow and enterprise networks, ensuring high availability and performance.
 - **CMDB Health & Governance:** Designed reconciliation rules, identification strategies, and data normalization processes to maintain CMDB accuracy and compliance with ITOM best practices.
 - **Dependency Mapping:** Leveraged Discovery and Service Mapping to visualize application dependencies, improving incident root cause analysis and change impact assessments.
 - **Automation & Monitoring:** Integrated CMDB with ITOM Event Management for proactive monitoring, automated remediation workflows, and enhanced operational resilience.
-

EDUCATION

University of Management & Technology, Lahore | 2023-2027

Bachelors of Computer Science (BSCS)

- **Current Standing:** 8th Semester (Ongoing)
 - **Honors:** Dean's Award for Academic Excellence
 - **Relevant Coursework:**
 - **AI & Machine Learning:** Deep Learning, Data Science, AI Labs.
 - **Software Engineering:** Requirement Engineering, Design & Architecture, Project Management.
 - **Core Development:** OOP, Data Structures, Web & Mobile App Development.
-

ACADEMIC & TECHNICAL PROJECTS

SnowCodeX (ServiceNow Script Auditor)

- **Tools:** FastAPI, Python, Machine Learning.
- **Focus:** Created an AI-driven framework that scans ServiceNow JavaScript (Client/Server) to detect "Bad Practices" and performance bottlenecks before they reach production.

SNOWDOCS Mobile App

- **Tools:** Kotlin, XML, Android Studio.
- **Focus:** A dedicated mobile learning hub for the ServiceNow community, providing offline access to Glide API documentation and common scripting patterns.

Bank Management System

- **Tools:** C++, Dev C++.
- **Focus:** An Object-Oriented application managing complex financial transactions, loan processing, and secure account authentication.

CERTIFICATIONS & ACHIEVEMENTS

- **ServiceNow Certified System Administrator (CSA)**
- **ServiceNow Certified Implementation Specialist - Data Foundations (CIS - DF)**
- **ServiceNow Performance Analytics Badge**
- **ServiceNow Expert Administrator Certification (Micro-Cert)**
- **Dean's Award for Academic Excellence (UMT)**
- **AI Professional Cerfitifications (Google)**

Active Contributor: Recognized for developing custom ServiceNow scripting utilities on GitHub.

LANGUAGES & SOFT SKILLS

- **Languages:** English (Professional Proficiency), Urdu (Native).
- **Soft Skills:** Technical Leadership, Cross-functional Communication, Analytical Problem Solving, Agile Adaptability, Mentorship.

FUTURE OBJECTIVES

Targeting a ServiceNow Architect or Senior Developer role in a remote-first environment, where I can leverage my deep platform expertise, Software Engineering background, and growing knowledge of Generative AI to design automated, self-healing enterprise service management platforms that drive measurable business outcomes.
